"Money"

December 13, 1992
51

- M_1 = the first M
- M_2 = the second M . That is, the M following the first M -money - proximity or closeness to money, as opposed to far-from-money. Near-money can be used to buy near-things like near-cheesecake.
- demand - economic ^{term} being referred to when the M is deposited. The act of the government sending the deposit. The act of its country of origin etc. it tried unsuccessfully to become a citizen
